

JUST THE FACTS MA'AM

TuB is distilled by the small batch engineers of Peach Street Distillers in Palisade, Colorado. At 4,700 feet, Palisade's cool nights and intense sunlight during the growing season make the perfect conditions for growing big plump fruits and distilling the most smooth and tasty gin.

With a bold profile of wild juniper berries plus a precise mixture of Coriander, Angelica, Orris root, Licorice, Lemon-lime peel and pinch of Cassia Bark, some might venture to call TuB smooth and refined. We suggest those folks choose their words carefully.

THE LEGEND

There's only one thing we like better than gin. That's shootin' stuff. And there's only one thing we like better than shootin' stuff. That's drinking gin and shootin' stuff at the same time.

And that's where our story begins...and ends. You see, we've been making gin in a tub for as long as we can remember. Until one day, between the gin-making and stuff shootin'...we shot up dear, old tub. Put a hole right through her.

We saved the gin, and gave tub a proper burial. And learned a lesson. Always drink and shoot responsibly.
