

THE VINEYARDS OF FLORA SPRINGS

For more than thirty years, the Komes and Garvey families have stayed the course of hand-crafting wines from their 650 acres of sustainable and organically-farmed estate vineyards throughout Napa Valley. From the cool rolling hills of Carneros, through the heart of Cabernet country in Oakville, Rutherford and St. Helena, to the temperature extremes of the lakeside vineyards in Pope Valley, Flora Springs grows and produces world-class French and Italian varietals. Each vintage the family selects 20% of what these estate vineyards produce for their own and proudly sells the remaining fruit to neighboring Napa Valley wineries. This enables Flora Springs to focus on being great, rather than large.
